

Wings Animation Story has 30 episodes divided by subject and follows the learning goals of the formal curriculum.

# It's a Birthday

The story of our program is told in three forms: the textbook story, motion book, and 3D animation. The 3D animation story centers on Peopao and his friends in the textbook. The kids who fully comprehend the main sentences in the textbook will understand the characters in the animation and reinforce their learning through watching it. Thus, Wings kids can interact in English with greater fluency by learning through various forms of content and engaging stories. Since the 3D animation content is linked to the textbook story and interesting videos, kids can double check what they have learned in the video by using the book.
